databricks DataQuality2

(https://databricks.com)

```sql
%sql
-- Check for duplicate records
SELECT id_string, COUNT(*)
FROM stg.customers
GROUP BY id_string
HAVING COUNT(*) > 1;
```

Query returned no results

```sql
%sql
-- Check for missing values in important columns
SELECT COUNT(*) AS missing_count
FROM stg.customers c
WHERE id_string IS NULL or len(id_string)=0;
```
